

Dear Potential Internship Applicant:

EQUINE INTERN is wanted for a growing ambulatory practice supported by a fully equipped and staffed hospital with competent, experienced practitioners with decades of experience from which to learn. We mentor and support a collaborative team-work environment with an emphasis on helping each other and providing excellent customer service.

WE ARE A WELL ESTABLISHED AND RESPECTED equine clinic in the beautiful Hudson Valley of New York State. The area provides an array of horses and disciplines to work with, allowing our doctors to find their niche. Video endoscopy, gastroscopy, dynamic endoscopy, digital radiography, ultrasonography, and nuclear scintigraphy provide plenty of diagnostic opportunities when working-up cases. There is a 13-stall barn with climate-controlled treatment areas and stalls for more challenging cases or when it is simply more convenient to work in a hospital environment. Pine Bush Equine Services and Veterinary Hospital (PBES + VH) offers shockwave therapy; regenerative therapies including IRAP, ProStride, and PRP; laser therapy; and power floats to aid in treating our patients. We perform over 250 elective surgeries a year at the hospital, offering excellent options for our clients.

PBES + VH HAS A STRONG HISTORY of quality care in this community. It was established over 50 years ago in 1969 by Dr. Howard Gill. Dr. Gill moved to this area after leaving his faculty position at Michigan State University. Today, Dr. Herb Burns who purchased the practice from Doctor Gill in 1997, still works at the practice and offers 28 years of practice experience to clients and colleagues. PBES+ VH is now owned by world-renowned equine surgeon and lameness expert, Dr. Mike Ross. Dr. Ross spent most of his career at the University of Pennsylvania but has been a consulting surgeon at PBES+VH since the 1980s. In addition, there are three other full-time veterinarians as well as two part-time veterinarians with a combined experience of over 50 years. We also have an established internship program with one or two interns each year. Pine Bush Equine Services prides itself on its long tradition of quality equine medicine and surgery.

THE POSITION REQUIRES a New York State veterinary license and valid driver's license. We offer this position at \$35,000 a year plus housing. We believe in offering strong mentorship as well as hands-on experience. The intern participates in on-call responsibility, management of in-patient, out-patient, and ambulatory cases. There is always a senior clinician assigned as support for the intern and to help by phone consultation and in-person support when requested or needed. The internship begins with accompanying senior practitioners until competence and confidence has been developed with handling emergency cases. The practice schedules appointments Monday through Friday and offers 24/7 emergency coverage for our clients. Although we have an active elective surgery caseload, we refer our emergency surgeries to local referral hospitals.

PBES + VH IS LOCATED IN ORANGE COUNTY NEW YORK in the beautiful and exciting Hudson Valley. The area is rural with beautiful rugged mountains and lots of history and culture but within 60 miles of exciting mid-town Manhattan. The Hudson Valley offers a multitude of hiking and outdoor activities. There is an acclaimed wine-growing region in the Hudson Valley with many wineries and restaurants to

experience. Angry Orchard and Tuthilltown Distillery are minutes from the clinic. Music and arts abound in nearby communities of New Paltz and Woodstock. The horse racing scene is vibrant with Monticello Racetrack 40 minutes from the clinic and the historic Goshen Racetrack less than 30. The Hudson Riverfront has plenty of dining and boating and fishing opportunities. Pine Bush is 1.5 hours from the Pocono Mountains' recreational area known for its hiking and skiing and 3.5 hours from ski areas in Killington, VT. Forbes rated the Hudson Valley as one of 2020's top destinations. You can read the article here: <https://www.forbestravelguide.com/destinations/hudson-valley-new-york/travel-guide>. New Yorkers are great neighbors that respect one another and take care of each other. New York State's COVID-19 infection rate has been less than 1% for weeks, even with the record high testing beginning August 20, 2020.

IF YOU ARE LOOKING FOR A PRACTICE that offers a diverse clientele from large breeding farms to beloved back yards horses, from Standardbred racing to Prix St. Georges dressage, from reining to Grand Prix jumpers, or from reproductive work to surgery, this practice can offer you that opportunity. See how our experienced team works together to offer clients the best care and service for their horses. Enjoy using advanced technologies to best-serve clients and treat horses in the beautiful mountains of culturally rich southeastern New York.

To apply, please send your resume or curriculum vitae with three letters of reference to Dr. Beth Ross at bethross@pinebushequine.com. I am always happy to answer questions so feel free to reach out to me at that address. We look forward to hearing from you.

Sincerely,

Beth M. Ross, DVM, Diplomate ACVS
